Outlook

Some *Mathematica* functions we are still working on:

`WriteUpPaper[`f`,` s`,` d`]`	devise a publication-ready paper with subject s from the data d and save it in the file f.

`SendToHepPh[`f`,` u`,` p`]`	send the paper made by `WriteUpPaper` to hep-ph using user-name u and password p.

"Alright," said Deep Thought. "The Answer to the Great Question..."
"Yes...!"
"Of Life, the Universe and Everything..." said Deep Thought.
"Yes...!"
"Is..." said Deep Thought, and paused.
"Yes...!"
"Forty-two," said Deep Thought, with infinite majesty and calm.
